

PARKING REGISTRATION AND NOTIFICATION PROGRAM

Management has initiated a Parking Registration and Notification program that will make it more convenient for residents to find parking.

- Effective immediately, each resident's vehicle will be required to have a Curtis Parking Decal to park in any area other than in designated "No Decal Required" parking area(s)
- Residents are asked to come to the main office to complete a Vehicle Registration and Notification form for vehicle(s) that will be parked in any parking area on the property.
- Once the Vehicle Registration form has been completed and approval by Management, each approved vehicle will be issued a Curtis Parking decal. This decal must be clearly displayed within six inches of the rear tag.
- Cars that do not have an approved Curtis Parking decal are subject to being "booted" and/or towed from the property without further notice. (There is a \$50.00 administrative charge for removal of the boot.)

If you or any of your residents have any questions, please call Curtis Protective Services at (800) 551-8368.
