

## **SAFETY AND SECURITY EVENING**

Curtis Protective Services would like to invite you to schedule a Safety and Security Evening for your community. There is no additional cost or obligation to you, other than to provide a meeting room for the program.

The Safety and Security Evening is open to all staff, residents, and guests to attend on a drop-in basis. Curtis Officers as well as other invited guests – including personnel from the local police, fire department, emergency services, and medical clinics – will make short presentations throughout the evening to educate the public about various safety and security issues.

Curtis Protective Services will provide full-page inserts for you to distribute with your monthly newsletters to advertise this program and to invite residents and their visitors to attend.

This evening is designed to provide one additional defensive step against crime in your community. Our philosophy is that it pays to be proactive rather than reactive.

If you would like to have Curtis Protective Services present a Safety and Security Evening for your community, please contact us at (800) 551-8368.
